

Commercial Satellite Imagery Library

What is the Commercial Satellite Imagery Library?

- The Commercial Satellite Imagery Library (CSIL) is a repository of unclassified commercial satellite imagery scenes; purchased by DoD components over the past 15 years. These holdings have been digitally archived and may be accessed by DoD personnel. The results of a query against this database (the images themselves) may be obtained by the requester, without cost. The imagery is shipped in the form of cd-roms or 8 mm tapes through standard parcel delivery shipping methods; or may be downloaded via a special telecommunications system link called Sky Media.

How do I find CSIL Homepage ?

Go to one of these Networks:

-From the SCEN (<http://intranet.se.nima.smil.mil/>) select **Leaving the Intranet NIMA SIPRNet** this takes you to NIMA's SIPRNet Homepage. (www.nima.smil.mil/), where you will select **Commercial Satellite Imagery**

-From the SIPRNet type in the following address:
<http://diaimagery.dia.smil.mil/csil/index.shtml>

-From the JWICS type in the following address:
<http://diaimagery.diac.dia.ic.gov/CSIL/>

Searching CSIL Holdings

What Where When

What

Select a 'sensor' type
This may be one or any number of available sensor platforms. In example on the right the LandSat, Ikonos Multispectral, and Ikonos Panchromatic sensors have been selected.

Where and When

Further refinement of the search can include the parameters:

- Date of Acquisition
- Satellite tracks
- Country Imaged
- Area of Interest

In the example on the right there is a specific time period defined for the query. And the entire United States has been identified as the area of search.

Results

The results of a query against the CSIL database (with user supplied criteria) yields image ID data for each returned scene; including an associated thumbnail graphic . (shown below)

Ordering

Once the inquiry list is complete, simply click on the "View/Finalize CSIL Inquiries" hypertext. This routes the user to a review/edit page with the list of images requested. Here first time users register themselves, providing a shipping address; and consent to the NIMA licensing/copyright agreements.
