E estimate based on partial or uncertain data.      0 Nil or negligible (\$2.5 million or less).      NA Not available.

- a To avoid the appearance of excessive accuracy, arms transfer data by country are rounded, with a greater severity for larger amounts. All country group totals for arms exports and arms imports shown here are the sums of rounded country data, except for world totals, which are the rounded sums of unrounded country data. This exception is made to preserve the equality of world arms exports and world arms imports; the rounded country data produce unequal world summations.
- b Total imports and exports usually are as reported by individual countries and the extent to which arms transfers are included is often uncertain. Imports are reported "cif" (including cost of shipping, insurance, and freight) and exports are reported "fob" (excluding these costs). For these reasons and because of divergent sources, world totals for imports and exports are not equal.
- c Because some countries exclude arms imports or exports from their trade statistics and their "total" imports and exports are therefore understated and because arms transfers may be estimated independently of trade data, the resulting ratios of arms to total imports or exports may be overstated and may even exceed 100 percent.
- d In order to reduce distortions in trends caused by occasional data gaps, the totals for the world, regions, and organizations include rough approximations for those countries and years in which data are not available, and available data for years in which countries were not independent.
- e Includes U.S. arms transfers to NATO agencies and to other international agencies and classified transfers, which are not attributed to recipient countries or regions.
- f Germany (the Federal Republic of) was known as West Germany through 1990, when data for East Germany ended.
- g Includes major equipment purchased by the U.S. Army Corps of Engineers for use in military construction projects in Saudi Arabia, recorded in U.S. accounts as U.S. imports.
- h US arms exports in dollar value terms in Main Tables II-IV beginning with the WMEAT 1997 edition have been revised upward significantly, due to use of new estimates for a major component, commercial arms sales. See the article, "Revision of U.S. Arms Export Data Series," in WMEAT 1997, which is available on the archive website of the State Department's Bureau of Verification and Compliance --www.state.gov/www/global/arms/bureau\_vc.html. (WMEAT 1997 is not available in print).
- i The Yemens became unified on May 22,1990. Arms purchases made by Unified Yemen following this date are shown under Yemen (Sanaa).
